Windhoek birding day trips with optional extensions

OVERVIEW

If you are unable to embark on a long birding safari, even a day trip to the hotspots around Windhoek will yield some highly satisfying birding. A lot of the Namibian endemics and other specials can be found close to the capital. A possible 2 or 3 day extension to include the coast and escarpment will increase the diversity of birds you can find in a short space of time.

BIRDING HIGHLIGHTS

On the day trips out of Windhoek specials likely to be found include:

- Rockrunner
- Bradfield's Swift
- Damara Hornbill
- Monteiro's Hornbill
- White-tailed Shrike
- Cape Penduline-Tit
- Orange River Francolin
- Violet-eared and Black-faced Waxbill
- Acacia Pied Barbet
- Pririt Batis
- Carp's Black Tit
- Rosy-faced Lovebird
- Chestnut Weaver
- Burnt-necked Eremomela

In addition to the above, on the trips a little further afield the specials include:

- Hartlaub's Spurfowl
- Ruppel's Parrot
- Herero Chat
- Violet Woodhoopoe
- Dune Lark
- Gray's Lark
- Ruppel's Korhaan
- Damara Tern
- Orange River White-eye
- Trac-trac Chat
- Stark's Lark
- Augur Buzzard

For more information and extension possibilities please contact us. We hope to meet you soon to go do some birding!

Thank you for choosing Nature Travel Birding.
